

ITESOFT launches its ITESOFT.Everywhere access offer for smartphones

ITESOFT's new ITESOFT.Everywhere offer enables users to look-up and validate documents right from their smartphones

ITESOFT, leader in France and major European developer of software solutions for automatically capturing, processing and handling documents, announces the availability of ITESOFT.Everywhere, a catalogue of mobile application versions of the company's ITESOFT.FreeMind and ITESOFT.Share products.

ITESOFT solutions integrate with the business processes that companies most often consider as critical, such as approving orders, payments, supplier invoices, client files and more. These processes frequently require input by decision makers on-the-move, constantly seeking new ways to improve efficiency.

ITESOFT.Everywhere is easy to use and optimises response times for users by enabling them to instantly access key approval, look-up, alert and document monitoring features directly from their smartphones, round the clock from any location

"There are many cases in which ITESOFT.Everywhere responds to a real business need expressed by customers. For example: a client services director can use his or her smartphone between two meetings to approve an important customer order; the treasurer can check a sensitive client payment; the CFO can approve the payment slip and subsequent payment of a supplier currently on-hold; the COO can remotely reorganise resources in the mail department to meet an unexpected peak in activity; and much more," explains Magali Michel, ITESOFT Marketing Director. She adds, *"The instant response that ITESOFT.Everywhere enables is a key for ensuring continuity of service and overall control, while accelerating and streamlining our clients' business processes."*

ITESOFT.Everywhere was officially released on November 16, 2009. Currently supported phone operating systems include Apple iPhone, RIM BlackBerry, Windows Mobile, Symbian and Android.

"The ITESOFT.Everywhere offer is the result of our product development strategy to continually seek innovation to benefit our clients. ITESOFT.Everywhere brings clients significant value-add and boosts their competitiveness in their own markets," says Philippe Lijour, ITESOFT CEO.
